

At The Outlook studio, we specialize in helping musicians realize their sonic visions.

Excellence in music recording and production at reasonable rates... Professional quality you can afford.

The studio is available only by appointment. Call or e-mail us to arrange for a studio tour, or to discuss a package deal for your project.

Why record at The Outlook?

You could record at home, and get results that sound fine. But for a professional quality recording, you need the right equipment and an engineer who knows how to get the sounds.

A great song could easily be overlooked because of an amateur-sounding recording.

Why take that chance? The Outlook has the pro gear and the engineer with "ears" and talent, so you can just do what you do best: MAKE MUSIC!

You don't need to spend half your life learning how to run new equipment or software.

Just play your music, and we'll do the rest.

We want to help you succeed!

TAKE
YOUR
MUSIC

to the
next level

Your music deserves professional attention. Whether you are a solo artist, or a band, your music will shine at The Outlook

We capture the essence of your performance with the energy and quality you need to succeed.

The Outlook offers:

professional recording, production, editing, and mastering

With over two and a half decades of music business experience, we're here to help you take your music to the next level.

But that doesn't mean high pressure.... The Outlook is a comfortable, relaxed rural studio.

The first and most important piece of gear in the recording process is the microphone. We have an extensive collection of mics for every instrument and sound. Our engineer/producer knows which mics will get the best results for you.

We also have a variety of amps, effects, and outboard gear to further enhance your recording. A studio drumset, amps and keyboards are available if you don't feel like lugging all your gear.

The idea is... making music should be easy, effortless, creative, and fun for you...because the listener can hear that in your final product.

Many people would be surprised to find this level of experience and professionalism at a studio in the woods of Maine.

We say, "Why not?" It's a beautiful place to be, and a different "outlook" on the music business.

The Outlook is located in an 1830 homestead, and surrounded by 103 acres of private wildlife sanctuary.

The studio and control room atmosphere is very easy and laid back. You'll feel right at home.

You can hear the results.
